Summary

Computer Science graduate with hands-on IT support, system administration, security monitoring, and data analysis experience. Skilled in incident resolution, Microsoft 365 administration (Exchange Online, Teams, SharePoint, OneDrive), and networking (TCP/IP, DNS, DHCP). Strong foundation in databases, SOC operations, and customer-focused IT solutions. Eager to expand into Linux, cloud, and enterprise systems.

Skills

- Python, Java, C++, JavaScript, PHP, HTML, CSS, SQL, MySQL
- Data Structures & Algorithms.
- API Integration, Debugging & Testing, Version Control (Git/GitHub)
- Security monitoring, incident triage, log analysis, threat detection.
- Splunk, Microsoft Sentinel.
- Phishing detection, IOC analysis, vulnerability scanning.
- Windows & Linux administration, Active Directory, Microsoft 365 ecosystem
- Networking (LAN, Wi-Fi, VPN, TCP/IP, DNS, firewalls, DHCP)
- PowerShell, Bash, Python automation
- SQL querying & joins, Excel, Google Sheets
- Power BI dashboards, data cleaning & validation
- Exploratory data analysis, basic statistics, KPI reporting
- Analytical thinking & problem-solving
- Clear documentation & communication
- Team collaboration & adaptability
- Attention to detail under pressure
- Customer-service mindset.

Experience

IT Support Intern – North West CET College (Hosted at ORBIT TVET College)
April 2024 – March 2025

- Resolved 95% of service desk issues on first contact, achieving 98% satisfaction and maintaining 99% system uptime.
- Troubleshoot LAN, Wi-Fi, and VPN connectivity, restoring service for 100+ users with 98% resolution success.
- Applied Windows security patches with 100% compliance, eliminating vulnerabilities across 200+ endpoints.
- Administered Microsoft 365 accounts, licensing, and password resets, supporting 200+ users with zero access failures.
- Supported Exchange Online, SharePoint, Teams, and OneDrive access for 50+ staff, resolving 100% requests with zero downtime.
- Set up 150+ computers and 40+ peripherals (printers, scanner, routers, servers), ensuring 99% workstation reliability across staff environments.
- Documented troubleshooting processes, reducing repeat incidents by 20% and improving IT team resolution consistency.

Education

Tshwane University of Technology - Witbank, South Africa

- Advanced Diploma, Computer Science (2023–2024)
- National Diploma, Information Technology (2017–2021)

Hoërskool Ermelo - Ermelo, South Africa

- National Senior Certificate (2012–2016)
